

SOURCES SOUGHT NOTICE FOR:

Design / Fabricate / Install

Local Processing Units / Programmable Logic Controllers

(for)

Surface & Underground Mining Related

PLEASE NOTE THAT THIS IS NOT A REQUEST FOR A PROPOSAL. NO

SOLICITATION EXISTS AT THIS TIME.

THIS SYNOPSIS IS FOR INFORMATION AND PLANNING PURPOSES AND, IS NOT AN

OFFER NOR A COMMITMENT.

ANNOUNCEMENT

Salado Isolation Mining Contractors LLC (SIMCO) is publishing this SOURCES SOUGHT SURVEY to identify market interest, availability and technical capability, and capacity of highly qualified and interested businesses for the above critical infrastructure project at the Department of Energy (DOE) Waste Isolation Pilot Plant (WIPP) Site, located approximately 33-miles southeast of Carlsbad, New Mexico.

OUR MISSION

Salado Isolation Mining Contractors (SIMCO) was formed to support the mission of the U.S. Department of Energy's Waste Isolation Pilot Plant, (WIPP) the nation's only repository for the disposal of transuranic waste generated by atomic energy defense activities. The WIPP facility has one primary mission: Safely Disposing of the Nation's Transuranic (TRU) Waste. The Environmental Management (EM) group within DOE is responsible for maintaining and enhancing the safety, reliability, and performance of the nuclear waste disposal for the DOE complex, which includes WIPP.

THE COMPETITIVE FIELD

This project is open to all business classifications, e.g., large businesses, HUBZone, small disadvantaged businesses, women-owned small businesses, veteran-owned, and service-disabled veteran-owned.

SYNOPSIS OF REQUIREMENT

Furnish labor, equipment, and engineering for the evaluation, planning, design, procurement/fabrication, and installation and decommissioning of 22 new Local Processing Units (LPUs). Eighteen (18) are surface, four (4) are underground; two (2) will be decommissioned in accordance with Nuclear Waste Partnership, LLC (NWP) SOW 22-053, Revision No. 0, October 26, 2022.

Additional Information:

- Estimated Solicitation Issuance Date: **_2nd Quarter, CY 2023**
- Estimated Proposal Due Date: **_2nd Quarter, CY 2023**
- Estimated Price Range: Between **\$1 million - \$5 million**

The eventual procurement, should it occur, will be priced as a combination of Firm Fixed Priced and Time and Material (Not to Exceed) costs. Offers **BEST VALUE** method with tradeoffs between overall technical value and price.

SOURCES SOUGHT NOTICE: Project: 520431
(for) Local Processing Units/ Programmable Logic Controllers
Underground and Surface

All responding firms are requested to identify their firm's size and type of business according to their North American Industrial Classification System (NAICS) code. **The North American Industry Classification System (NAICS) code for this acquisition will be in 335314, 334513, or 334515 Relay and Industrial Control Manufacturing (or similar).**

Teaming arrangements and joint ventures will be considered for any subsequent procurement based on SIMCO's market research.

Interested parties should contact John Venaglia, Sr. Procurement Specialist, at john.venaglia@wipp.ws SIMCO appreciates your review and feedback.
